

HYDRAULIC CYLINDERS

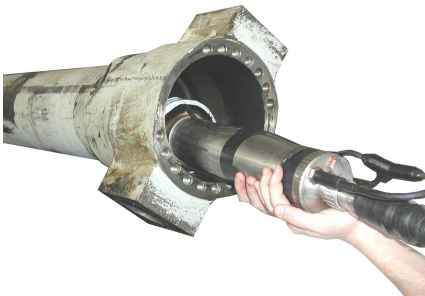

HYDRAULIC CYLINDERS

Design and manufacturing of all types of hydraulic cylinders to apply on working machinery (cranes, rigs, retros, etc), engineering, cement factories, etc.

- Single / Dual action.
- Telescopic.
- Hollowed extractors.
- Compact at very high pressures.

Also availability of high technic means for repair and testing.

Remote video inspection.

Hollowed extractor cylinder for cable stressing.
